- Excellent teacher. Always willing to help. I like how he always challenges students to understand difficult questions instead of simply giving them the answer.

- I didn't really have any prior math knowledge, so I was getting everything taught at an accelerated pace. Tim was very helpful with great notes and taking time during office hours to work with me. He had a lot of patience and helped me understand what I was doing. He was a great teacher and very well organized. I would recommend others to take a class from him.
